## BASKETBALL

WRITTEN BY COACH LUKE

### Let's Stay Connected

What a crazy time we are all living in, but there isn't a more exciting time at Sunrise Hoops. Sunrise basketball always has been much more than just basketball and you all have experienced it. It is just different and it is hard to explain to people that haven't lived it. Our program is built on doing things the right way. Players and families like you have all been apart of this. Our current players and current success is directly correlated to your efforts in the Sunrise jersey. We all know there is so much more at Sunrise than just putting on a jersey. We hope you look back on the time at Sunrise and see the fruit of your labor now. We hope you feel attached to our program even from afar. We hope this place means as much to you now as it did then.

### Recent Accomplishments

Our platform has gotten bigger and our program is growing with continued success. We have made the GEICO Nationals, our nation's HS national basketball championship, the past 2 seasons. This past season earning a 3 seed in the tournament with a strong chance to advance.

Unfortunately, COVID-19 ended the tournament before it started. Currently, we are preseason ranked #2 in the country and are looking forward to an exciting year ahead. The post grad (PGB) team qualified for their National Prep Championship last season for the first time in program history. Sunrise Hoops is 1 of 2 programs in the country to both qualify for the GEICO Nationals with our HS team and the National Prep Championship with our PGB team in the same season. IMG Academy is the only other program that has accomplished that.

# ACTION STEPS

Your guide to staying involved with Sunrise Hoops

## 1 Click link below

## 2 Check the box Write us a Comment

Type Sunrise Hoops in  
the comment box

## 3 Leave contact info We'd love to thank you!

## It's Time to take the next step

Unfortunately, we are still behind in facilities and resources when it comes to us vs the best programs in the nation. Our mentality hasn't changed since you've played here and that is our key to the success. Now it is time to match the mentality with the resources. We have grown some sponsorship opportunities, and have a famous alum willing to help. Sunrise Hoops wants to continue to grow our resources to give athletes like yourself the best experience possible. Currently, we are adding equipment to the weight room for improvements. We have a confirmed donation for a full-time athletic trainer for practices and games. We also have 3 volunteers helping our players daily, but we are only providing them housing and food. Our shooting machine has been down for over a year now and we'd like to get a new Dr. Dish. There are numerous projects we are working on for our current athletes. In reality, we need your help. If you feel led to give back to the Sunrise Hoops family, you know it will be a valuable asset to our success just like your past efforts. Gratitude and servant hood have always been at the center of our program, and we are certainly grateful for your faith and effort to help build our program. Once Family, Always Family
